Billing Error Rate

Definition & Measurement Details

What is Billing Error Rate?

The number of bills to customers sent by the Accounts Receivable (AR) Department that contain errors divided by the total number of bills sent to customers over the same period of time, as a percentage.

Why should this KPI be measured?

Billing Error Rate measures the diligence of the Accounts Receivable (AR) Department in issuing bills to customers. Errors may include bills sent to the wrong address, improperly billed amounts, etc. Excessive billing

How is this KPI calculated?

Two numbers are used to calculate this KPI: (1) the number of bills sent by the Accounts Receivable (AR) Department to customers that contained errors and (2) the total number of bills sent to customers.
