# Distribution Center Expense per Case

Definition & Measurement Details

## What is Distribution Center Expense per Case?

The total expense incurred by a company's distribution center (e.g., expense focused on receiving shipments, warehousing, sorting, inventory control, picking, etc.) divided by the number of cases or pallets delivered to customers over the same period of time.

## Why should this KPI be measured?

Distribution Center Expense per Case measures the expense incurred by a company's distribution center in relation to the number of cases or pallets delivered to customers over the same period of time. High values

## How is this KPI calculated?

Two values are used to calculate this KPI: (1) the expense incurred by a company's distribution center (e.g., expense focused on receiving shipments, warehousing, sorting, inventory control, picking, etc.) and
