Healthcare Expense per Firm-Wide Employee

Definition & Measurement Details

What is Healthcare Expense per Firm-Wide Employee?

The average amount of health insurance expense (premiums paid to health insurers minus any expenses paid by the employees) incurred by the company, for each employee working for the company (regardless of whether or not they are covered under the company's health plan).

Why should this KPI be measured?

This metric measures average health insurance costs (to the company) paid by the company for each individual working for the company, regardless of their level of coverage under the company's plan. While

How is this KPI calculated?

Two values are used to calculate this KPI: (1) total health insurance costs (premiums, setup fees, etc.) paid by the company, and (2) the total number of employees. Total employees
