Lockbox Item Processing Hold Over Rate

Definition & Measurement Details

What is Lockbox Item Processing Hold Over Rate?

The number of payments not processed on the same day they were received divided by the total number of payments received over the same period of time, as a percentage.

Why should this KPI be measured?

Lockbox Item Processing Hold Over Rate measures the number of payments not processed on the same day they were received in relation to the total number of payments received over the same period.

How is this KPI calculated?

Two numbers are used to calculate this KPI: (1) the number of payments not processed on the same day they were received, and (2) the total number of payments received over the same period of time. Include all
