Note:

¹ The sample size of the observed data varies for each KPI.

Mortgage Sales & Origination

Mortgage Lending

Mortgage Sales & Origination

Mortgage Loan Servicing

Secondary/Wholesale Mortgage Sales

-- The Mortgage Sales & Origination function works to generate sales leads, educate potential borrowers on loan options, and move borrowers through the loan origination process. Mortgage Loan Officers, or Sales Representatives, are tasked with performing all of the front office, customer facing tasks related to mortgage loan origination, including collecting customer information (pay stubs, tax returns, credit reports, etc.), communicating with borrowers throughout the origination process and reaching out to potential new borrowers to grow their book of business. This function also includes underwriters and application processors, who work with the loan officers to ensure that applications are underwritten according to company protocols and receive a decision (i.e., approval or denial) in a timely manner.

Mortgages Closed per Loan Officer

Definition & Measurement Details

What is Mortgages Closed per Loan Officer?

The total number of mortgage loans closed (i.e., funded) by the company over a certain period of time divided by the average number of mortgage loan officers, or originators, working for the company over the same time period.

Why should this KPI be measured?

Mortgages Closed per Loan Officer measures the average productivity (i.e., volume of loans closed per loan officer) of individual loan officers working for the lending institution. In all cases, a high value should be

How is this KPI calculated?

Two numbers are used to calculate this KPI: (1) the total number of mortgage loans closed by the lending institution over a given time period, and (2) the average number of loan officers, or originators, working for the
