Percentage of Commercial Loans Extended (Maturity Date)

Definition & Measurement Details

What is Percentage of Commercial Loans Extended (Maturity Date)?

The dollar amount of outstanding commercial loans managed by the financial institution that have been restructured (troubled debt restructuring or modification) divided by the total dollar amount of outstanding commercial loans managed by the institution over the same period of time, as a percentage.

Why should this KPI be measured?

Percentage of Commercial Loans Extended (Maturity Date) measures the dollar amount of outstanding commercial loans managed by the financial institution that have been restructured (troubled debt restructuring or modification) divided by the total dollar amount of outstanding commercial loans managed by the institution over the same period of time, as a percentage.

How is this KPI calculated?

Two values are used to calculate this KPI: (1) the dollar amount of the outstanding commercial loans managed by the financial institution that have been restructured (troubled debt restructuring or modification) divided by the total dollar amount of outstanding commercial loans managed by the institution over the same period of time, as a percentage.
