Proof of Delivery Rate

Definition & Measurement Details

What is Proof of Delivery Rate?

The number of shipments that were completed with a signed proof of delivery (POD) form (paper or electronic) divided by the total number of deliveries completed over the same period of time, as a percentage.

Why should this KPI be measured?

Proof of Delivery Rate measures the number of shipments that were completed with a signed proof of delivery (POD) form (paper or electronic) in relation to the total number of deliveries completed over

How is this KPI calculated?

Two values are used to calculate this KPI: (1) the number of shipments that were completed with a signed proof of delivery (POD) form, and (2) the total number of deliveries completed over the same period.
